

Race Management Training for all

Recruiting Now!
No Previous Experience Required

Wednesday 12th February
19:00

Yacht racing can look like complete chaos from the beach. Here at the CCYC we have to make it work on the water, and that means a small team of volunteers organising and running it.

In fact, it runs to some pretty strict and simple rules, all aimed at making racing safe fair and FUN, and that includes being FUN for the volunteers!

If you'd like to know how racing works, and how the volunteer team makes it all happen, come and join us on Wednesday 12 February at 19:00 at the Club. We can promise you an entertaining and informative evening with plenty of opportunity to get hands-on in a warm and friendly atmosphere. This session is open to all but especially those of you who are considering helping out with racing, or already help but want to understand more.
